BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"The Bar 20 Rides Again," Clarence E. Mulford; "The Sky Rocket," Adela Rogers St. John; "The 13th Murder," Frederick G. Eberhard; "Youth," Joseph Conrad; "Holy Orders," Marie Corelli; "The Clean Heart," A. S. M. Hutchinson; "Simon Called Peter," Robert Hebble; "Celebrated Crimes," Alexander Dumas; "A Campfire Girl's Happiness," Jane L. Stewart; "The X Bar X Boys at Rustlers' Gap," James Cody Ferris.

The Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

During the past two weeks, the C.P.R. has been loading rock from the Fraser mine and running same by trains to points in British Columbia and Alberta where their line is threatened by the spring freshets.

THE LADIES' AID of the United church will hold a tea and sale of home cooking, fancy goods, etc., in the church auditorium on Saturday, March 31st from 3 to 6 p.m.

UNITED CHURCH NOTES

Easter Sunday—Church people would do well to keep in mind that to the sense of privilege there should be added a sense of duty in the matter of attendance at church. Especially should an effort be put forth on Easter Sunday, the great festival of the church. The message will be in keeping with the occasion.

Sunday, April 8th, and each week-night following. We again remind you of the visit of Rev. J. W. Ogden, D.D., of Vancouver, outstanding preacher and veteran of the Canadian pulpit. You are requested to keep the week, commencing April 8, open, so as to be able to attend these services.

Sunday, April 15th—Rev. W. T. Young, former minister at Blairmore, will spend a week's holiday visiting former friends and acquaintances. He will preach on Sunday, April 15. All are cordially invited to attend these services.

ALBERTA MINING VISION VOICED IN HOUSE, GARLAND

In Hansard of March 8, it is noted that E. J. Garland, federal member for the Bow River riding, turns his attention to the plight of unemployed miners in this province and asks of the minister of trades and commerce the following:

"I desire to ask the minister of trade and commerce (Mr. H. H. Stevens) if there will be an investigation into an industry in which there have been serious reductions in wages, very low standards of living, extremely intermittent work, and certain charges now put forward that there is discrimination against union men who are active, namely, the coal industry of Alberta."

The Hon. Mr. Stevens informed Mr. Garland that the matter would be considered if particulars were available.

Two Communists were decapitated at Koenigsberg, Germany, for the murder of a Nazi storm trooper in July last.

DEPARTMENT OF HEALTH REPRESENTATIVE VISITS HERE

A meeting of representatives from Frank, Bellevue, Hillcrest, Blairmore and other district points was held at the Greenhill hotel on Friday afternoon last, when they were addressed by Mr. W. B. Milne, of the Alberta department of health and supervisor of municipal hospital organizations. Mr. Milne quoted extensive statistics of other points in the province where such institutions were being operated.

He stated that in organizing the municipal hospital district, the consent of the three town councils, Frank, Coleman and Blairmore, would have to be obtained. The balance of the proposed district, being unorganized territory, consent of 25 per cent of the resident ratepayers would be required. After such consent has been obtained, a poll is necessary of resident ratepayers, and the proposal to form a municipal hospital district, including the "site" of the proposed hospital, must obtain a two-thirds majority before any further action can be taken.

If the petition was successful the next difficulty would be one of financing for the building and equipment of the hospital. He stated that it was almost impossible to sell debentures on the open market. He suggested that local companies take up the bulk of them if they were ever offered. He stated that the proposed hospital cost would be \$350 per patient per day.

The government grant being 50c per patient per day, the government paying out from \$385,000 to \$400,000 per annum for grants. The grant to this proposed district would be approximately \$4,440 per annum, in addition to which there would be payments from the Workmen's Compensation Board. The cost of patient care would be \$35.247 per year, based on a capital expenditure of \$50,000. Deducting the approximate grant of the department from the patient care cost of \$35.247, the district would have to raise \$30,000. With 32,000 acres in the district (L.I.D. No. 7) at two cents an acre, \$16,000 would be raised, and the balance would have to be raised from tax on residents' property, fees from miners and business population.

Any district in the proposed area which did not vote favorably to the scheme, that is to give a two-third majority, could be brought into the scheme or left out, by the authority of the minister, as he desired, after a full investigation. In outlining the benefits of the proposed municipal hospital, he said that operating charges would be much less than they are now, and that instead of the miners paying a yearly fee of \$30, as they do at the present time, this amount would be reduced under the proposed municipal hospital scheme.

At the conclusion of Mr. Milne's address a committee was appointed, composed of Mayor W. Knight, C. J. Tompkins, Blairmore; Ed. Dunkin, Frank, and J. Dugdale, Bellevue, for the purpose of arranging public meetings to educate people to the workings and function of the scheme, and the advantages to be obtained from a central hospital. A hearty vote of thanks was tendered Mr. Milne for coming to Blairmore, and for his enlightening address.

SALT REFINERY FOR LETHBRIDGE

Headed by Harvey Bossenberry, M. L.A., Pincher Creek, president, the Triple A Salt Co., Limited, with head offices in Lethbridge, is to operate a salt manufacturing plant near Fort McMurray. Part of the output will be refined, packed and distributed at Lethbridge.

Drumheller's school estimates for 1934 are \$2,000 less than last year's.

"JOURNEY'S END"

In response to numerous requests, the Coleman Players will, by arrangement with Samuel French, Inc., New York, present this well known play on the anniversary of Vinny Ridge.

It is said that this play originated with the author immediately before the battle of Vimy Ridge, and it is very fitting that it should be produced at this time. The cast of characters will be as follows: Captain Hardy, A. E. Graham; Lieut. Osborne, M. W. Cooke; Private Mascen, W. H. Garner; Second Lieut. Raleigh, J. Cousins; Captain Stanhope, S. C. Short; Second Lieut. Trotter, R. F. Barnes; Second Lieut. Hibbert, H. W. Clark; The C.M.S., J. J. Devine; The Colonel, C. J. Devine; A German Soldier, J. Spivak.

Arrangements will be made for attendance of veterans and members of the Canadian Legion.

The play will be presented at the Coleman Community hall for two nights only, April 9th and 10th. Admission: reserved seats 75 cents, general 50 cents, children 25 cents. Tickets may be obtained from members of the Coleman Girl Guides.

C.A.H.A. IN CONVENTION, TORONTO

Mr. L. L. Morgan left last week end for Toronto, where he is attending the annual meeting of the Canadian Amateur Hockey Association. Mr. Morgan is president of the Alberta branch of the association, and was joined enroute by Jack Hamilton, Dominion past president, Regina; E. A. Gilroy, vice-president, Portage la Prairie; Claude Robinson, treasurer, and A. E. R. Coe, Winnipeg; H. A. McNeill, Brandon, representing Manitoba; Don Mitchell, Weyburn; Mr. Hardy, Edmonton, representing Alberta, and Art Jefford, Vancouver. Fred Marples, of Winnipeg who is secretary of the federal body, joined the party at Toronto.

CHRYSLER-PLYMOUTH DISTRIBUTORS MEETING

A meeting of agents and distributors of Chrysler-Plymouth cars and trucks is being held at Lethbridge today to confer with Mr. M. S. Brooks, assistant sales manager of the Chrysler Corporation for Canada, of Windsor, Ontario. Mr. Brooks is accompanied by E. J. Hargreaves, district manager for Southern Alberta and Eastern British Columbia, and Mr. Clarence Ellis, of the Windsor advertising department. C. Sartoris, of the Blairmore Motors, local district representative, is also in attendance, accompanied by C. Beasley, local sales booster.

AN IMPORTANT MOVE

In the legislature at Edmonton on Tuesday the following motion was introduced by W. R. Howson, Liberal leader, seconded by Mr. Bowlen: That an order of the Assembly do issue for a return showing: 1. A copy of the file in each case where an offence was reported by the police to the various departments of the government in 1930, 1931, 1932 and 1933, which was not followed by a prosecution.

2. A copy of the file in each case in these years where a prosecution for an offence was commenced and was stopped during the course of proceedings. 3. A copy of the file in each case in these years where a conviction was registered and a fine imposed, and the fine remitted in whole or in part.

4. A copy of the file in each case in these years where a conviction was recorded and a period of imprisonment directed, and in which the term, in whole or in part, was not served in accordance with the conviction.

TALENTED VIOLINIST SERIOUSLY CONSIDERS RESIDING IN G. PRAIRIE

Local music lovers will be pleased to learn that the talented young violinist, Josef M. Jasbec, of Belloy, is seriously contemplating taking up residence in Grande Prairie and opening a school of violin and theory instruction.

Last year, during the Male Voice Choir's presentation of the minstrel show, Mr. Jasbec surprised and delighted his hearers with his musical ability. The late A. B. Herdman warmly complimented the young man on the excellence of his interpretation of compositions of the old masters. Again last week the choir were fortunate in having Mr. Jasbec on their programme.

Mr. Jasbec was born in Hillcrest, Alberta, and at the age of 10 started his musical education under that old Swiss Maestro, W. H. Moser. While but 11 the young student played his first public concert in the Capitol theatre at Lethbridge, with a rare degree of success. A year later, we find him teaching and playing in the orchestra at Hillcrest and Bellevue, two years later (at 14) becoming conductor.

While but 17 years of age, Mr. Jasbec conducted a 25-piece orchestra in the Southern Alberta Musical Festival at Blairmore, and later at Lethbridge, where the provincial shield was won.

Mr. Jasbec is the proud possessor of 14 medals and 2 cups won individually in musical festival competitions, in provincial and Southern Alberta competitions.

As a teacher he has also met with considerable success, one of his pupils at the age of 13 taking the highest marks in the Dominion for that year in the Toronto Conservatory of Music examinations. Many of his pupils have taken high honors in the southern musical festivals.

A brother of Mr. Jasbec is playing 'cello, in a Calgary orchestra and his father, an old German orchestra leader, is regarded as one of the leading musicians of the Crows' Nest section of Alberta.

In conversation with the Herald reporter, Mr. Jasbec stated he is considering removal to Grande Prairie, but it is contingent upon securing fifteen or more pupils for violin instruction. Already several have offered for enrolment and arrangements have been made whereby F. J. Lockyer is enabled to discuss matters for Mr. Jasbec in this connection, or enquiries may be directed to Mr.

An Exhibition Of Childhood

London is to witness a most unique exhibition when, on April 19, will open a display of relics of "Children throughout the Ages," acclaimed as the most comprehensive portrayal of child life down the centuries ever presented to the public. The event derives significance as much from the historic value of the various exhibits, as from the purpose to which the proceeds are to be devoted. The beneficiary will be one of London's most deserving charities.

The relics to be displayed link child life with the dim remote ages of the past, the oldest exhibit being a Chinese doll said to date from 600 B.C. From that far distance down the years, the varying fancies of children, the toys which brought them pleasure, the garments they wore, the furniture which decked their nurseries and playrooms, all will be traceable in the array of exhibits from the pre-Christian era down to the end of the reign of Queen Victoria.

Queen Elizabeth's christening robe, her cap and mittens, a portrait of her as a baby (by Holbein), will be on show. A shirt worn by Charles I. as a child of two, his boyhood's brocade coat, will find prominent place in the display beside Oliver Cromwell's christening robe. Here then that historic enmity which ended so tragically for the monarch is made to symbolize the transitory nature of human passions and, transformed, serves the charitable purposes of to-day. Napoleon, too, will be represented, not in a manifestation of childish desire, but rather in evidence of that other love which great and lowly have in common, and which is, of course, as old as childhood is. The present given by the Emperor Napoleon to his infant son, the King of Rome, has been obtained as an exhibit.

Perambulators and cradles and such adjuncts of childhood that flourished in the seventeenth century, have been collected to augment the display. Children's furniture from the sixteenth to the nineteenth centuries will be shown, as well as a display of British and foreign children's clothes, hats, shoes and gloves of the same period, early games, cards and jigsaw puzzles, playbooks and lesson books. A series of rooms is being arranged to depict child scenes of bygone days with inevitable wax figures in the Madame Tussaud tradition. There will be portrayed in similar fashion a Kate Greenaway scene, a Victorian Sunday, the ancient nanny and the modern nurse.

The British royal family, as usual where charity is the object, is according wholehearted support to the exhibition. Queen Mary is contributing playthings of her own childhood, and toys which enthralled the young Prince of Wales, his brothers and sisters. Two gold rattles given by Queen Victoria to the Prince of Wales also have been offered, and considerable interest will attach to an exhibit of the immature efforts of the Prince and his brother, the Duke of York, as artists. It is said these efforts are just as atrocious in result and effect as any of his exalted youth.

Perhaps one of the most interesting of the relics to be exhibited, however, has no connection whatever with the childhood of the great or the near-great. It is a pewter feeding bottle, believed to date back to about 1750. It was discovered in possession of a farmer who was using it to feed his lambs. Probably no more fitting place could be found for this memento of a bygone period and a long-forgotten childhood than alongside the relics of royal youth and palace playrooms. It is a striking reminder of that strange democracy of the very young, that constant symbol of the "great levelers"—childhood and death—and it is to be hoped that as such, in these transitional days, it will be interpreted by those privileged to patronize the exhibition.

There is a timely moral lesson, too, in the story recently told by one of the better known financial journals. It happened that a shabbily dressed, ostensibly poor, elderly woman, interested in the classic portraits of a large up-town bank in New York, and told the uniformed guard she desired to see an account. She was shown to the new account department where three officers of the bank were more intent upon the approaching lunch hour than upon new business, particularly business which came in such inauspicious garb. As it happened, lunch won, and the woman was left to the manager.

After stating her mission, the old lady asked to see a statement of the bank's financial position, much to the surprise of the manager who was accustomed to having the institution's financial status taken for granted, particularly by small depositors. However, he presented the requested statement, answered courteously some startlingly intelligent and pertinent questions, which satisfactorily received, brought the intimation the lady wished to open an account. She gave her name and other necessary information, and, finally, for he expected a small initial sum, he asked: "How much do you wish to deposit?"

"Thirty-one thousand dollars," replied the old lady, equally casually, as she proceeded to count out the money in bills of various denominations.

Harry Lauder's New Mansion

Lauder Hall, Sir Harry Lauder's new mansion at Strathaven, Scotland, is receiving its finishing touches, and will be ready for occupancy in a few weeks. He had been planning his close attention, and the building contains many historic as well as unique features.

While excavating for a new building in Kanioudi, Bulgaria, workmen recently found an aqueduct in which the top-pipe sections could be removed for cleaning.

Among men the safest auto driving ages are between 20 and 30, and among women, between 20 and 40, according to statistics recently compiled in England.

Weary Days—Sleepless Nights
Wrack the Nervous System

Men and women take night after night on sleepless beds. Their eyes do not close in the refreshing repose that comes to those whose nerves are right. They are irritable and nervous, weak and worn out, and everything looks dark and gloomy.

Milburn's H. & N. Pills is the remedy that is required to restore them the blessing of good health. They bring back the sound refreshing sleep, tone up the nerves, and impart that sense of buoyancy to the spirits that is the result of renewed mental and physical vigor.

Strange Accidents At Sea

Ships' Officers Give Accounts Of Two Unusual Collisions

Recalling strange accidents at sea, officers of the steamer Beechpark, at Saint John, gave first-hand accounts of two unusual collisions.

Chief Engineer David Thomson was with the Volturna when that ship carried troops across the English Channel in war days. Traveling without lights, troop-carriers proceeded at full speed over courses ordered clear by the admiralty. A stocky trawler returning from the banks had not heard the warning and unwittingly crossed the troop ship's track.

"It was the first time an iron ship was cut in two," said Thomson. "We struck the big trawler broadside, plowed right through the hull and cut the other side. From the port I got a fleeting glance of the stern half-sinking."

Only five of the crew of 39 were rescued, and one died soon after. "The confused survivors wouldn't believe it. They couldn't understand why we had not foundered also."

Capt. Will Masson told how the steamer Montpark, a famous Q-boat during the war, met a strange end while under his command in 1919. A crash occurred while the Montpark was feeling its way through poor visibility one night a few days out from the Tyne mouth. Capt. Masson saw the bow of another ship protruding into his own, heard terse orders in a foreign language, and watched an unknown vessel break away into the mist.

The Montpark sinking, its crew jumped into the sea. Capt. Masson and a few seamen were rescued from a life-raft the following evening, but other members of the crew were never found and the ship which left them helpless was never identified.

Progress For Persia

Mechanization Of Old Handicraft Industries Looks Like Mistake

And now the shah of Persia has evolved a five-year plan! Progress is to make its debut through the mechanization of the ancient handicraft industries that have created so many delights for collectors. Great carpet and rug factories will rear their looms where patient hands have labored after the traditions and the patterns of the centuries.

Gone will be the features that made oriental rug collecting a delight to those with incomes permitting it. No longer will variations in color tell of the exhaustion of some native dye mixture, or irregularities in pattern betray the advent of a new native weaver. The innovations that began with analine dyes and chemical washes will reach their climax in a uniformity that matches the best American "orientals."

Indeed, progress in Persia may mean the end of progress at all. Progress is a genuine oriental rug if it is not a whit from the mechanized product of the occident?

What Motorists Pay In Taxes

Automobiles Contribute More Than 27 Per Cent. To Revenue

More than 27 per cent. of the total revenues collected by the governments of the different provinces of Canada is contributed by owners of automobiles in the form of taxes on gasoline and license fees. This information is disclosed in a report just issued by the Canadian government bureau of statistics.

The report states that the total amount paid by automobile owners to the provincial treasuries in the fiscal year 1932-33 was \$45,499,458, of which gasoline tax accounted for \$24,948,280 and \$20,551,173 was in license fees.

In the province of Ontario 35.9 per cent. of the total government revenue is paid by motorists; in Quebec, 32 per cent.; in Nova Scotia, 27.5 per cent.; in New Brunswick, 27.3 per cent.; in Alberta, 24.1 per cent.; in Prince Edward Island, 22.7 per cent.; in Saskatchewan, 19.8 per cent.; in British Columbia, 17 per cent. and in Manitoba, 15.45 per cent.

High Broadcasting Station

To spread Hungarian culture throughout the world and make it possible for nationals residing in other countries to keep in easy contact with the fatherland, Hungary will erect the highest radio broadcasting station in the world. It will be on an island south of Budapest. A trellis work steel tower will rise 932 feet, and a telescopic shaft on top will make the total height 1,022 feet.

Telephones in Iceland number 4,773, while those in Nigeria total 2,000 and those in Belgian Congo, 1,420.

Restricting Rubber Supply

Britain And Holland May Find Plans Upt

W. L. Clark, writing in the Border Cities Star says: "With Great Britain and Holland controlling 95 per cent. of the world production of rubber and the United States consuming 50 per cent. of the output, conversations are being held between the British and Dutch with a view to restricting the supply."

In 1928 the British tried the Stevenson restriction plan which curbed exports of rubber as well as actual production. The world price of crude rubber went up from 16 cents to \$1.50 per pound. Then the Dutch producers speeded up and ruined the British scheme. The price sagged. It is now between 9 and 10 cents per pound.

Just now the Dutch are dicker with the native producers in the Dutch East Indies. Although the natives do not contribute much to the total supply, it is sufficient to knock the props from under any restriction scheme of the British and Dutch. In the meantime the United States is asking the right to take part in the discussion as the chief rubber consumer.

The way the rubber restriction plan can be upset so simply prompts the thought that Soviet Russia could easily make any wheat agreement between the other nations look pretty sick.

Motor License Revenues

Alberta Government Does Not Favor Extending License Year To April 1st

Revenue from Alberta motor licenses amounted to \$800,000 for January and February of this year, Premier Brownlee stated in the legislature in showing that this is an important source of provincial receipts at the year's opening.

At the time, the premier was dealing with the government's firm opposition to acceding to the largely signed petition from the Alberta Motor Association asking that the license year be extended from January 1 to April 1.

Portion of a moving picture censor board for the prairie provinces may be considered shortly, according to information given the legislature by Mr. Brownlee. Estimates for the censor board in this province were under discussion. The amount passed was \$8,900, an increase of \$20 over last year.

Gifts Exchanged

Prince George And African Chief Shake Hands

Prince George and Chief Tshakedi of the Bamaungwato tribes, whose handshake a year ago aroused international attention, were the central figures in a cordial gathering as the king's youngest son opened his tour of Bechuanaland and Rhodesia. The native chieftain, sent from his territories for begging a white man and subsequently reinstated by King George, warmly assured the prince of the tribe's loyalty to the throne, and presented him with a magnificent set of skins.

The prince shook hands and in turn presented the chief with a walking stick. Subsequently Prince George shook hands with Tshakedi's mother, Queen Semane, whose dramatic appeal to the king on her son's suspension brought about his reinstatement.

New Television Machine

Will Be Ready For Demonstration At Chicago Show

The world's largest television machine, being built at the Horton Steel Works, Fort Erie, N.Y., will be ready for demonstrations at the re-opening of the Century of Progress Exhibition at Chicago on May 1. The builder of the machine, U. A. Sanabria, of Chicago, said the machine would have a 30-foot screen and its transmitter would weigh more than 5,000 pounds. It would have a definition sufficiently large to handle an entire scene at one time.

England's shortage of bricks is holding up many new houses.

British Flight Squadron

Suggestion Is Made That A Visit To Canada Should Be Undertaken

A suggestion was made in the British House of Commons that the United Kingdom send to Canada detachments or flights of airplanes to "show the flag" in the Dominion. The planes would be sent aboard a naval aircraft carrier.

Discussion of the proposal arose during the debate on the air estimates when Oliver E. Simmonds, Dudson Conservative and aircraft manufacturer, told the house Canada had never seen a squadron of British planes, although every year squadrons of machines from the United States made exhibition flights to Canadian air pageants.

Mr. Simmonds said he was in Ottawa early this year and heard hope expressed that the Royal Air Force would "show the flag" in Canada. He asked that the air ministry consider the matter.

Sir Philip Sassoon, minister for air, described the suggestion as "very interesting."

Passenger Train Pooling

Expected To Effect Big Saving Under Arrangement

The passenger train pooling arranged for in the Montreal-Toronto, Ottawa-Toronto and Montreal-Quebec services, as extended and effective from March 11, will produce a total saving of approximately 1,000,000 train miles per annum, divided about evenly between the C.N.R. and C.P.R. and on the basis of a conservative estimate will represent a saving to each company of approximately \$500,000 per annum. This information was given in the House of Commons by Hon. R. J. Manion, minister of railways and canals, based on a telegram from Chairman C. P. Fullerton, of the C.N.R. board of trustees.

We're shipping socially, says the Brandon Sun. We sent 62 Christmas cards and only received 41.

Dickens Was Good Reporter

Began Career In Press Gallery Of British Parliament

A new work by Dickens which has been running serially in many newspapers is appropriate for at least two reasons. His genius first broke on the world in instalments. Was there ever a time in the history of literature when a word of readers waited as impatiently as people did for the immortal monthly "parts" that began with "Pickwick?"

The second reason is even more pertinent for newspaper men. Dickens began his career as a reporter. He worked in the press gallery of parliament from his nineteenth to his twenty-third year, until he set to work on "Pickwick." He was one of the best parliamentary reporters of his day, with an extraordinary reputation for accuracy. He told the New York editors in one of his farewell speeches, "To the wholesome training of severe newspaper work, when I was a very young man, I constantly refer my first successes."—New York Times.

London Consumes Less Meat

Dieting and slimming by women and girls, popularity of canned goods with week-enders and unemployment are given as reasons London consumed 10,000 tons less of meat during 1933 than in 1932.

Traffic in titles has been made illegal in Germany.

WHEAT HOLDINGS NOT DIVULGED IN COMMITTEE

Ottawa.—Refusing by a vote of 22-9 to permit John McFarland to divulge information regarding either the extent of the government's wheat holdings or the amount in terms of cash which the treasury has at stake, the common banking committee practically concluded its investigation into the wheat stabilisation operations of the past three years.

The committee took this stand despite a clear-cut statement from Hon. E. N. Rhodes, minister of finance, that the government would place no obstacle in the way of a complete exposure of every detail. On the two critical questions placed before the committee for consideration—whether or not Mr. McFarland should declare the extent of his operations in bushels and in money—the vote revealed nine Liberals in favour, all of them, save T. E. Donnelly, of Willow Beach, Saskatchewan, and Hon. J. MacKenzie, of Vancouver, from east of the Ottawa river.

But while these facts, whose suppression was considered by the committee to be vital to the issue of protective measures taken in behalf of western farmers, remained unanswered, the committee did obtain from Mr. McFarland a clear statement of the character of the operations he has carried out since assuming the general management of the central selling agency of the wheat pools on November 30, 1930.

On the eve of departing for the Rome grain conference, Mr. McFarland said he had hopes a plan would be evolved to place world supply and demand on a parity, elevating prices and removing wrinkles from the brows of wheat farmers.

The grain operator said Canada had done remarkably well in the last three years in exporting wheat. Despite tariff barriers all over the world, bonuses to farmers and wheat boards, Canada had sold 1,000,000,000 bushels. It was impossible to estimate what this meant to the west, but it was at least a profit of \$100,000,000.

Recovery In Britain

Conditions Better Than In Any Other Civilized Country

Newcastle, Eng.—Chancellor Neville Chamberlain claimed in a speech here that the tide of recovery had set in more definitely in the United Kingdom than in any other great civilized country.

The chancellor pointed to figures showing unemployment is still falling and said for the first time in 10 years there has been an increase in the amount of labor employed on land. He said the greater part of returning prosperity was due to growth of home trade and that the situation in industries depending on foreign markets was more difficult.

Following failure of last year's world economic conference, he said, it had become necessary to try new methods. He suggested two methods, direct negotiations of which full use was being made, and development of intra-imperial trade.

St. Lawrence Project

President Roosevelt Assured That Every Effort Is Being Made To Assist Plan

Washington.—Frank P. Walsh, New York State Power authority chairman, assured President Roosevelt that every effort would be made to go ahead with the power programme on the St. Lawrence project and he promised to continue co-operation for eventual development of the St. Lawrence seaway.

In a memorandum to the president, Walsh said: "It should be possible to reach a complete agreement among the several government agencies involved well within the current year. 'An annual saving in the north-east of more than \$200,000,000 in lower electric rates, resulting from completion of the St. Lawrence project, is indicated by detailed figures which will shortly be presented to the New York legislature.'"

Kiwana Convention

Lethbridge.—D. H. Elton, K.C., governor of the Western Canada district, Kiwanis International, announced that the annual district convention will be held August 5-7. The convention will be held here.

W. N. O. 2038

Could Render Good Service

Senate Well Fitted To Carry On Inquiries Senate Buchanan

Ottawa.—The senate could render good service by carrying on inquiries, Senator W. A. Buchanan told the upper house in continuing the debate on the suggestion that more legislation be initiated there. Inquiries should be held into unemployment and immigration. No legislative body in Canada had the experience of the senate and was, therefore, fitted for such work.

Senator Buchanan described the constitution the senate had made to the pockets of the farmers of Western Canada by safeguarding rates on flour and wheat in the Crow's Nest Pass agreement. A frequent criticism of the senate was that it was made up of reactionaries. If this were true the senate would have taken the part of the railways in 1919, but did not and saved the preferential rates for western farmers.

When the Klondike railway proposal was rejected by the senate, the late Sir Clifford Sifton had said he would not test public opinion on any measure rejected by the senate.

Return To China

Aged Chinamen, Hit By Depression, Return To Canton

Canton, China.—Thousands of aged Chinese arriving at Canton from North America and other foreign ports are being given free transportation on to their native villages "so that they may die at their old homes," according to a statement from the Overseas Chinese Relief Bureau.

The latest official figures gave more than 13,000,000 Chinese living abroad, but within the last year thousands of them have returned to Canton because the world-wide depression robbed them of their job or cost them the loss of a lifetime of savings. Most of the returned emigrants have been away from 40 to 50 years and are penniless.

Budget Surplus

Britain Expects Further Increase At End Of Fiscal Year

London.—Another increase in the current surplus was recorded, with the end of the fiscal year, only 11 days away, bolstering the expectation of a budget surplus of around \$150,000,000.

Latest figures, those for last week showed revenue exceeded expenditures \$34,000,000, bringing the current surplus to \$110,000,000, after including the United States War Debt fund and sinking fund payments, which were not provided for in the budget a year ago.

The current surplus of \$110,000,000 compares with a current deficit of \$200,000,000 at this date a year ago.

Favors National Bank

Resolution Will Be Considered By R.C. Legislature

Victoria.—The British Columbia legislature will consider a resolution which would, if passed, place it on record as favoring a national banking system for the purpose of making national, provincial and municipal credit available for governmental expenditure.

The public accounts committee adopted a resolution to this effect. The matter was brought up by G. G. McGeer, K.C. (Lib., Vancouver-Burrard). Private financing would not be affected.

Has Faith In West

Toronto.—"I never had more faith in western and northern Canada, and I firmly believe that the future of Canada lies there," declared Rev. W. G. Brown, of Saskatoon, former moderator of the Presbyterian church, in an address on Western Canada at the general board of missions.

Favors Titles If Earned

Ottawa.—"I will always be a plebeian myself, but I am in favor of titles for Canadians, if they are restricted to those who really earn them," E. W. Beatty, president of the Canadian Pacific Railway Company, observed in an interview here. Mr. Beatty made it plain, however, he is opposed to hereditary titles here.

May Cut Interest On Loans

Toronto.—The Globe said in a despatch from its Ottawa correspondent that considerable progress was evident in the government proposal to obtain agreement from loan companies for reduction of interest rates on loans to farmers.

Conflagration In Japan

150,000 Persons Reported To Have Been Made Homeless

Tokyo.—At least 1,000 persons were known to have been killed in a fire which quivered three-fourths of the city of Hakodate, largest community in Japan north of Tokyo.

Twenty-five thousand buildings were destroyed and 150,000 persons were made homeless, according to figures in a message received by the minister of communications from the Hakodate wireless station on the outskirts of the ruined city.

The fire rode an equinoctial gale which whipped it into a night-long fury. The city was still burning after the sunrise hour, although the gale was reported abating.

Chimneys toppled by violent winds set fire to roofs, causing the general conflagration, reports said. Nearby suburbs also caught fire.

The Japanese army, navy and other government agencies were hastening to the scene to conduct relief work.

Electricity plants were destroyed soon after the fire broke out and the city was thrown into darkness except for the lurid light of the flames.

One despatch said the city was a "living hell" and declared that "through the darkness the refugees were fleeing from death and were abandoning even the small bundles of possessions they carried from their homes."

STATE CONTROL OF RADIO STILL IN THE FUTURE

Ottawa.—Complete nationalization of radio broadcasting was still in the distant future and taking over by the Canadian Radio Broadcasting Commission of the 60-odd privately-owned stations remained only a "pious hope," Hector Charlesworth, chairman of the commission, told the radio commission of the House of Commons.

In the meantime, so that those in isolated districts may not be deprived of good radio, new licenses for privately-owned stations have been granted.

Financial stringency had prevented full development of radio along the lines laid down by the legislation of 1932, Mr. Charlesworth said, but a vast improvement had been made and further development would result as revenues permitted.

To W. A. Beynon (Conservative, Moose Jaw), who asked if it were true that a Regina station had been ordered to spend \$16,000 to put the plant in order, or close up, Mr. Charlesworth said that was not quite the proper picture.

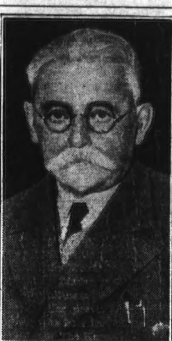

The station had been advised of certain improvements necessary and he expected the owners would be glad to make them.

Mr. Charlesworth corrected a statement he made on his last appearance respecting the readers of Canadian newspapers.

On that occasion, speaking of news broadcasts, Mr. Charlesworth was quoted as saying 80 per cent. of the people of Canada never saw a daily paper.

"Apparently that was what I said, but was certainly not what I intended to say," Mr. Charlesworth declared. "What I meant was that 80 per cent. of the people did not see an afternoon paper until after the evening news broadcast."

REFUGEE FROM VIENNA

Self-exiled from Austria, Maix Winter, former vice-mayor of Vienna, one of the leaders of the Austrian Socialist Party, is pictured as he arrived at New York. Many Socialist leaders fled the country after the first was outlawed. Winter's the first to arrive on this continent.

Widen Liquor Act

For Freer Sale Of Beer And Wine In Ontario

Toronto.—The Ontario government moved to provide for freer sale of beer and wine in the province. In the dying moments of a dreary session the government surprised the legislature into freer sale of liquor with presentation of the long-awaited and much discussed bill.

The measure provides: 1. Sale of beer and wine with meals in dining rooms in standard hotels and such other places, which would include restaurants and clubs, as the board may decide. 2. Sale of beer by the glass in refreshment rooms in standard hotels, and in Veterans' and labor union clubs. 3. Full control will be maintained by the liquor control board. 4. The board may dispense with the present permit system. 5. The board may permit advertising in newspapers and by radio. 6. The board may grant permits for the consumption of beer and wine at banquets.

Train Wreck In Russia

Thirty-Three Persons Are Reported Killed And Sixty-Eight Injured

Moscow.—Thirty-three persons were killed and 68 injured in the wreck of two trains near Sverdlovsk. The wreck occurred nine days ago, but word of it did not become public here until recently.

Despatches said a local passenger train, travelling at high speed, ran through a closed semaphore at Tavatal, and collided with a freight train.

The responsible employees are already on trial.

This is the fourth such catastrophe reported within a month.

Code To Govern Industry

Kitchener, Ont.—A code to govern the furniture industry has been drawn up by more than 200 striking plant workers here, and will be forwarded to the mass buying probe initiated by Hon. H. H. Stevens, minister of trade and commerce at Ottawa. The strike leaders claimed they had as much right as employers or government officials to prescribe for unfair labor.

Bombing In Berlin

Explosion Wrecks Taxi Of Jewish Owner Of Motion Picture Theatre

Berlin.—A tin can filled with high explosives was hurled on the famous Unter Den Linden and wrecked a taxi containing David Oliver, Jewish owner of a motion picture theatre. First reports which raced through Berlin that the bombing was an attempt to assassinate Hermann Wilhelm Goering, premier of Prussia and close associate of Chancellor Hitler, were denied. Evidence indicated it was a plot against the life of Oliver.

The automobile was wrecked, near the intersection of the avenue with the Wilhelmstrasse, and Oliver's chauffeur was seriously injured.

Members of the family of the theatre owner, a native of Austria but for 35 years a resident of Berlin, refused to discuss the affair. He was "at home," it was said.

It was at his theatre recently that anti-Jewish demonstrations resulted in the banning of the film, "Catherine The Great," featuring Elizabeth Fergner, a Jewess.

Rumors that Goering had been seen to drive past the corner shortly before the explosion lent color to the story that he was the intended victim, but these met a vigorous denial from police.

The premier, they said, was attending the ceremonies opening a ship lock at Niederpösch at the time. Police offered 5,000 marks (about \$1,985) reward for information to clear up the mysterious explosion.

Russia May Join League

Report Necessary Action To Be Taken In September

Paris.—It was learned in usually reliable circles that Soviet Russia has about decided to enter the League of Nations and may take the necessary action to do so at the September assembly.

It was said in diplomatic circles that soundings taken by Moscow leaders had convinced them that entry into the league would not only be welcome but that a seat on the league council was assured.

A final decision was said to be expected shortly since the necessary preliminary negotiations were likely to be complicated.

The Soviets must be officially recognized by such league members as Holland, Denmark, Finland and others with whom she has at present no diplomatic relations.

NATIONAL CATTLE MARKETING PLAN IS ADVOCATED

Ottawa.—A national cattle marketing scheme was urged before the Stevens committee of the House of Commons by a veteran rancher of the west, Frederick Macleay of High River, Alta. To save the cattle industry he suggested lowered freight rates on export shipments, encouragement of the United Kingdom market and, if necessary, government-imposed minimum prices for livestock.

It was livestock day before the committee, three members of the Ontario legislature, J. E. Jamieson, Howard Fraleigh and John A. Craig, presenting facts and opinions gathered in connection with operations of the Toronto stockyards.

It was charged there was no competitive bidding on the stockyards and that 90 per cent. of Ontario farmers would favor Dominion operation of the yards.

Drovers, they said, were afraid to make open charges "for fear their heads will fall off."

Ontario farmers would favor changes in hog-grading regulations, the federal committee was assured, especially so as to permit segregation of the grades in the yard and open bidding, and farmers would favor also restraining packing plants from buying direct from producers and staying away from the stockyards until they saw what their requirements would be.

George H. Barr of Regina, representing the Saskatchewan livestock producers, was a brief witness. He said exchange situations were the bane of western exporters, suggesting stabilization by agreement of all Empire currencies apart from gold backing and other external factors. If Canada could not secure Empire co-operation, it could fall back on a stabilization fund of its own, relieving exporters for the adverse rates.

NOT NECESSARY TO GUARANTEE FURTHER LOANS

Ottawa.—The conditions this year will be such, the government expects, that it will not be necessary for the Dominion to guarantee any loan of a private company as was the case with the Canadian Pacific railway last year. Hon. Wesley Gordon, minister of labor made this clear in the House of Commons.

Accordingly the part of the clause in the relief act of 1933 which gave the government authority to make such guarantees will be dropped in the relief act, 1934.

The relief act passed each year gives authority to the Dominion to join with the provinces in relieving unemployment and should not be confused with the forthcoming federal works program, which will be entirely a Dominion undertaking and will be brought into the house as separate legislation.

During the discussion opposition members pressed the minister to substantiate or deny published reports that the federal works scheme would run to \$51,000,000. The minister said he would bring it down to the amount the government proposed to spend.

The resolution was carried and the bill based on it given first reading.

A conference will be held with the provinces as to the spending of the money under the relief act after it has been passed, the minister explained.

The Dominion government had paid out for direct relief up to March 10 about \$13,000,000, Mr. Gordon stated.

Accounts were yet to come in he estimated the total payment for the fiscal year covered by the relief act of 1933 would be somewhat below the limit included in that act of \$20,000,000.

For Livestock Commission

Proposal Is Made Before The Mass Buying Investigation

Ottawa.—Establishment of a permanent commission of three members to be known as the "Canadian livestock production and marketing commission," was proposed before the Stevens mass buying and price spreads committee of the house of commons. The commission would be for the purpose of improving and stabilizing the livestock industry.

Setting up of this body was advocated by the Stevens committee, the Canadian Livestock Co-operative (Western), Limited, and secretary-treasurer of the Manitoba Co-operative Livestock Producers, Limited.

Convening by the government within the next two months of a "Canadian livestock conference" was another proposal thrown out by Mr. Ingaldson. This conference would meet every year. It would consist of one representative of the livestock producers' organization or organizations by each province, and two representatives of each of the following:

The Industrial and Development Council of Canada Meat Packers, the Railway Companies' Joint Council, the Retail Merchants' Association and the Consumers' Association of Canada. The conference would confer with and make recommendations to the suggested permanent commission on matters appertaining to the livestock industry.

The services of one or more experts to act in an advisory capacity to the proposed permanent commission and to the Canadian livestock conference should be procured, the western livestock authority suggested.

Working On Wheat Price

Experts Meet In London To Prepare For Conference

London.—Final details for new wheat recovery proposals, including a minimum price scheme, were being worked out in preparation for the international conference at Rome, April 5.

A private meeting of experts of eight nations opened here at Bush house.

Alternative plans are being drawn up, it was learned, for some of the schemes under consideration.

Next Step Is Recovery

Hamilton, Ont.—"This country has fought economic depression with courage and fortitude, the next great development is recovery," said Prime Minister R. B. Bennett, addressing the Hamilton, Brantford and district branches of the Canadian Manufacturers Association here.

Our picture shows Prince George driving from the docks at Cape Town with General Hertzog, Prime Minister, on the way to Government House. This was the first stage of the Prince's tour of South Africa.

WHAT OF THE CONSUMER?

Not so many years ago there were to be found on the quiet, well-shaded streets of the towns and smaller cities of older Canada substantial residences of comfortable proportions, distinguished by mansard roofs and surrounded by park-like grounds—where an iron stag or two might be noted among the shrubbery. These, for the most part, were the homes of the local merchants or small manufacturers; they were the leading citizens of the community, socially and financially. In the larger cities the commercial districts were dominated by large warehouses where the wholesalers, then playing a highly important part in the commercial world, operated. These were the days when wholesalers and retailers and small manufacturers formed three important links in production and distribution.

Then developed the era of mass production, with huge industrial plants located convenient to cheap power and raw materials—rather than labor; with growing pressure to reduce the cost of distribution and eliminate the wholesaler as an economic factor; and with the replacing of the retail merchant by the chain store. The whole process was designed to turn out goods at the lowest possible cost and place them in the hands of the consumer at the lowest possible price. The welfare and prosperity of the small manufacturer, the wholesaler, the retailer, and even the workers concerned, were considered of secondary importance as compared with the interest and goodwill of the consumer. It was argued, and with justification, it appeared, that the losses to those directly concerned were of secondary importance to reducing the cost and raising the standard of living of the great mass of the people, by making goods available at lower prices.

Economic trends and economic fashions swing only so far in one direction before swinging in the other, however. We now have at Ottawa an investigation of business methods and business conditions, the ramifications of which are vague and uncertain but which had its inspiration in an apparently nation-wide agitation against the chain store, which in the public mind represents the highest development of the theory and system of mass production and mass distribution—the theory of the machine era.

Without endeavoring to deal with the main question which the Ottawa investigation appears to be confronted—that is the advantages to the community as a whole of low retail prices to the consumer as opposed to the old condition of prosperous merchant citizens and perhaps a greater volume of local employment—there is the interesting and significant situation that nothing is heard of the consumer in whose interests the whole evolution of industry and trade of the past few decades was brought about.

Apart from abuses which have crept in, particularly during the recent period of reckless prosperity—and which for the most part can be dealt with under the anti-combines, minimum wage and other legislation already on the statute books—the Ottawa committee can hardly evade the question as to whether the public is prepared to pay higher prices all along the line to restore the small individual retail establishment to prosperity as opposed to the small order houses, big departmental

stores and chain merchandising organizations. This is the fundamental problem. The departmental stores in the big cities, the chain stores in the smaller centres, and the mail order houses catering largely to the rural population, by providing a direct connection with big scale manufacturers, have, through the reduction of costs and profits, made possible the distribution to the public of merchandise and foodstuffs at prices in relation to purchasing power which have greatly improved the standard of living. This advantage has been gained by the changed conditions in manufacturing and merchandising now so bitterly complained of, not only by those who have suffered, but also by the public who have benefited.

It is very doubtful if a permanent solution to this problem can be found. Abuses can be and should be eradicated—but it is the duty of the government to maintain the view that the oldtime conditions in industry and merchandising can be restored, with or without government interference, without altering present price levels and standards of quality at such prices; the future holds a great disappointment.—Financial Times.

THE CHEVROLET STANDARD SIX

The Chevrolet Standard Six for 1934, lowest priced of all Canadian cars, yet similar to the famous Master Six except in wheelbase and a few minor details, is announced by General Motors Products of Canada, Limited.

The new Standard Six has a wheelbase of 107 inches, longer and wider Fisher bodies, and a greatly improved 60-horsepower motor. The resemblance to the Master Six is easy to follow in the slanting radiator, the smart horizontal hood louver, the deep-skirted fenders extending well over the tires and covering chassis construction. The new Fisher bodies have the exclusive Fisher no-draft ventilating system and many comfort and luxury features.

An ideal car for the fleet user and commercial traveller, the new Standard Six is not only economical from the standpoint of first cost, but also in respect to maintenance and operation. As a companion car to the Master Six, it is sure to have a wide appeal among buyers who want a well-built and economical car in the lowest-priced bracket. Models available are the five-passenger regular coach, five-passenger special coach, four-passenger roadster with rumble seat, and the two-passenger coupe.

The Standard Chevrolet is built with the highest possible Canadian content. All cars bearing the Chevrolet name are built of the same materials with the same precision and fine craftsmanship, and on the same manufacturing and assembly lines of General Motors of Canada, Limited, as the Master series.

Special Passion Week services were conducted at the Pincher Creek United church this week, with the following clergy in charge. Monday, Rev. A. L. Elliott Macleod; Tuesday, Rev. A. E. Larke, Blairmore; Wednesday, Rev. John Wood, Bellevue; Thursday, Rev. R. C. Taylor, Coleman; and tomorrow night, the pastor, Rev. J. W. Whitmore.

The many local friends of Mr. and Mrs. Ernest Hinds, formerly of Blairmore, now residing at Ferndale, near Bellingham, Washington, regretted last week end to learn that their daughter Thelma had met with an accident. It appears that she and a girl friend were walking a highway, when two cars approached from behind, and as one car attempted to pass the other, both collided with the girls. The Hinds girl suffered lacerations and fracture on the head, while her chum is said to have lost both her chum is said to have suffered broken legs and an arm. Drivers of both cars were exonerated from all blame in connection with the accident.

WHAT MOTORISTS SAY

More than 27 per cent of the total revenues collected by the governments of the different provinces of Canada is contributed by owners of automobiles in the form of taxes or gasoline and license fees. The report states that the total amount paid by automobile owners to the provincial treasuries in the fiscal year 1932-33 was \$15,499,455, of which gasoline taxes accounted for \$24,948,290 and \$20,551,173 was in license fees. In the province of Ontario 35.9 per cent of the total government revenue is paid by motorists; in Quebec, 32 per cent; in Nova Scotia, 27.3 per cent; in New Brunswick, 27.3 per cent; in Alberta, 24.1 per cent; in Prince Edward Island 22.7 per cent; in Saskatchewan, 19.8 per cent; in British Columbia, 17 per cent; and in Manitoba, 15.45 per cent.

Car registrations being considerably down last year, it was not to be expected that gasoline sales would reach the 1932 total. However, the reduction in gasoline consumption amounted to only about 3 per cent. During 1932, 503,781,000 gallons of gasoline were sold in Canada. In 1933, the sales amounted 485,550,000 gallons.

News of the death of Rev. Alex. Ferguson, who passed away at East Lake Ainslie, Nova Scotia, was received at Macleod last week. Deceased was 59 years of age and a native of Nova Scotia. He was a graduate of Pine Hill Divinity Hall, Halifax, and was ordained in 1907. In October, 1928, he received and accepted a call to the Macleod Presbyterian church, but was obliged to resign last year, owing to ill health. He is survived by his wife and two daughters.

The annual general meeting of the shareholders and directors of the Mc Gillivray Creek Coal & Coke Co., Ltd., was held at Coleman on Tuesday, when reports were presented from the auditors and officials. Present from a distance were Lorne A. Campbell, Roseland, president; Robert A. Burns, Henry A. Theony and James Nowell, former president, of St. Paul, Minn. Local officials present included G. Kellock, vice-president and general manager, and Albert F. Short, secretary-treasurer.

Walter Clark, of Coleman, was a \$10 winner in the February Fernie hospital draw. Harry Sobey, of Coleman, also won a ten spot. The following prizes went to Coblin: Mrs. E. Knight \$51, Bobby Goss \$10.00, Joe Macnack \$10.00, J. Kremmick \$10.00. The following tickets cancelled, if turned in to the Fernie Hospital board, will be placed in the next distribution: 2187, 2195, 2199, 2541 to 2600, 2679 to 2756, 2853 to 2876, 3069 to 3090, 3124, 3153 to 3176, 3225 to 3236, 3296, 3345 to 3356, 3397, 3442, 3507, 3549 to 3572.

We enjoyed several hours' good fishing at Beaver Creek on Sunday night, securing thirty eels, three bass, two perch, four grayling and bull trout, four dolly varden, eight speckles and a lobster. On landing the bull trout, a bystander informed us that fishing for them was illegal and that we should place same back in the water. We looked up and saw two mounties coming our way at a fast pace. We buried the bull trout in the bank of the stream, then woke up. Anyone finding any of the above fish, will be rewarded upon returning same to us or the police.

Maple syrup, known for its delightful flavor throughout North America, is not so well known in Europe, and the consumption there is confined largely to Canadian and American residents. Treacle, or molasses, golden syrup and ordinary granulated sugar are the ingredients commonly used by the English in the preparation of dishes similar to those for which maple syrup and maple sugar are used in Canada. The same applies to Scotland, where

maple syrup and sugar are practically unknown. The Scotch people do unknown to them. Efforts, however, not go in for pancakes and similar are being made to introduce Canadian articles of food, so that the joys of dian maple syrup and sugar into the United Kingdom, and it is anticipated that as the people acquire a taste for these products the demand will rise.

SATISFACTION

There exists in all of us a certain amount of native vanity, in that we feel that our judgment in matters affecting our own requirements is superior to that of a stranger. And this is quite in order and absolutely justified. We know the requirements of our own business as to quantity required; we have, by experience and actual practice, concluded that a certain grade, color or quality suits our purpose best.

in Printing

We have made our choice, and usually know pretty well what we want and how we want it. Co-operation in securing this can best be obtained from the home printer, for it is his desire, in fact his duty, to see to it that he secured for you just what you want, and that he carries this regularly in stock. In the printing, also, your wishes can be carried out by consultation and co-operation.

The carpet-bagger, however, will always try to sell many times your ordinary requirements; he will most likely try to work off a job lot of paper. And as for style of work, since there is no chance to consult, and as no proof is submitted, the customer must take it as supplied, regardless of his own ideas.

Therefore, in order to get what you want, and when you want it, in the matter of your printing requirements, consult with

From Our Own Correspondents

HILLCREST HAPPENINGS

Mr. and Mrs. H. Richards, of Vancouver, formerly of Hillcrest, are rejoicing over the advent of a daughter.

Johnny Elick was a Coleman visitor last week.

Little Miss Katherine Kyle held a party for a few of her friends at her home on Wednesday.

Mrs. W. Kovach is a patient in the local hospital.

Miss Nancy Warriner underwent an operation in a Calgary hospital on Saturday. Her mother, Mrs. A. N. Warriner, went to Calgary on Thursday to be with her daughter.

Miss Bessie Carter entertained a number of friends at her home last week.

Mr. and Mrs. Leavitt are rejoicing over the birth of a son.

On Sunday evening a meeting was held in the Union hall to consider the building of a swimming pool. The proposed plans have been prepared by Mr. W. Hutchison. The meeting was unanimously of opinion that, providing the necessary funds could be raised, the project should proceed. A committee with F. Gregory, R. Smith, Dr. G. B. Rose, G. Thornton, H. Instone, Angus Grant, R. Gardiner and J. Dudley (chairman) was appointed to go fully into the question of costs and financing, and report back to a later meeting. Robert Truba is secretary of this committee.

(Too late for last issue)

March 22—Bellevue Chapter, O. E. S., celebrated its sixth anniversary by inviting the members of Sentinel Lodge, A.F. & A.M., to a birthday party in the Masonic hall. The evening started with cards, prizes being won by Helen Westrup, ladies' first; Mrs. W. Adlam, second; E. C. Coastick, gents' first; E. Cranston, second. Then members and guests sat

to a sumptuous banquet, presided over by Mrs. F. Padgett, worthy matron. Following the toast to "The King," Mrs. Padgett called upon Mr. C. Emerson to propose the toast to "Our Guests," which was responded to by Mr. E. G. Coastick. The birthday cake, made by Mrs. J. S. Penn, was then lighted and distributed. After the banquet, the members and their guests indulged in dancing till the early hours of morning.

Mrs. R. Makin was a business visit, or to Calgary.

Mrs. F. Gregory underwent an operation in a Lethbridge hospital, and is reported doing nicely.

Mary Richard was visiting at the home of Mrs. R. C. Taylor, Coleman, over the week end.

CORBIN HAPPENINGS

The home of Mrs. Robert Elliot was the scene of a very delightful bridge party, when Mrs. Elliot and Mrs. James Taylor entertained. Mrs. Ferryman won first prize, Mrs. Woodward second, and Mrs. W. Stone the consolation. Among those present were Mesdames S. Knight, A. Shepherd, W. Goss, F. Dawson, H. Ferryman, W. R. Sykes, A. D. Williams, A. Rear, T. Collins, J. Sanderson, J. Woodward, J. Deswick, W. Stone, L. Doree, B. Lyne, W. Almond, D. Waddington, H. Jorgensen, C. Petrie, F. Winters, H. Osborne, A. Grieve and A. Teberghien.

Miss Nancy Jackson entertained about fifty boys and girls on Saturday evening last in the B. & B. hall the occasion being her fifteenth birthday. Games were played before the supper hour, followed by dancing, interspersed with other games. Mrs. Thomas Mansell assisted Mrs. Jackson in serving her daughter's many guests.

John Queen is a patient in the Corbin hospital, recovering from a foot injury received when he slipped in front of a mine car. The injury, though painful, is not of a serious nature.

Mrs. J. N. Barnes is visiting her mother, Mrs. D. R. Macdonald, at Cranbrook.

P. McGovern, senior, of Lethbridge, is visiting his daughter and son here, Mrs. William Crossfield and Pete McGovern.

Ted Ainworth, from Elk Valley, was a visitor here during the week, the guest of Mr. and Mrs. S. Knight. Percy Elmes returned Saturday from Fernie with Master George, who has been the guest of his grandmother, Mrs. J. Puckey, for some time.

A notice has been posted, closing the Corbin road to trucks and cars exceeding 3000 pounds weight until road conditions are more favorable. It is hoped in this way to prevent the road from being cut up, and also prevent slides which usually occur at this time of the year.

BELLEVUE HAPPENINGS

The whist drive and dance held in the L.O.O.F. hall was a grand success. For whist there were 28 tables at play, the following being prize winners: Miss Hilda Warn, ladies' first; Mrs. N. Spooner, second; H. Newton, gents' first; A. McDonald, second. Supper was served by the football boys, after which the floor was cleared for dancing. The following were declared winners of the draw, arranged in order first to thirtieth: Bert Simons, Bellevue; F. S. Beck, Bellevue; Tony Desorgie, Bellevue; P. McNell, Hillcrest; A. Wilson, Coleman; Mrs. Turner, Bellevue; C. R. Ritchie, Bellevue; Frank Owen, Bellevue; A. Wilson, Coleman; Mrs. Loughran, Bellevue; George Jordan, Bellevue; A. Daniels, Hillcrest; and A. Zomwalt, Bellevue. About \$80 was netted and added to the Football Club funds.

A miner named Frank Medveyky

THE ROCKY MOUNTAINS MARCH

(Tune—"The British Grenadiers")

We honor old explorers, and men who sailed the seas—Columbus, Marco Polo, and such great names as these. But of all the world's brave heroes, there's none that can compare With a bunch of guys from Hillcrest who went to do and dare.

One day this band of He-men, with faces grimly set, Braved grizzly bears and Indians—left home without regret. Toward the great Pacific these gallant boys set forth, Flaunting no gaudy banner, just out to prove their worth.

From weeping wife or parent to the wild and open space; And while these guys marched on—ward, Sam Douglas set the pace. McDade and John Semanick came stepping side by side, Then Curly Smith and Forster with Alec Bain as guide.

Sam Douglas, turning reckless (his temper naught could check), Was looking for a hobo to wring the poor thing's neck.

Young Alec Bain got frightened, as things began to hum, Told Curly Smith and Forster "I wish I hadn't come!"

When east-north-east of Forstay's, the leader made them stop—"Let's rest awhile, my comrades, here comes a blousing cop!" Then Bain, the guide, did signal, and to the bull's car ran, And Sam stood there dumbfounded—the "Mountie" got his man!

This lost upset Sam's "speerts" and soon it did appear That poor old Jimmy Forster was lagging in the rear.

Then Samuel bravely warbled, their loss to reconcile: "Carry the honor, soldier," and "Lass o' Ballochmyle."

Again the travellers started, now full of painful aches; Curly's tough heart broke.

When ten yards from the Boneyard, his wind all given out, His comrades saw that Curly was turning right about.

Along came Funagalli—there was a joyful shout—Hitch-hiked the fallen hero, just as his legs gave out.

To Lundbreck Luis took him, our poor limp thirsty friend, And gave him some "refreshment" his broken heart to mend.

But undismayed, the others for Blairmore set their sail. Sam dashed away some bitter tears, then led along the trail.

Then after many perils, endurance lowly sank. Three woe-begone survivors reached the town of Frank.

Misfortune dogged their footsteps, even to the bitter end. For here they lost Semanick, their "It won't get well if we pick out!" said Samuel to McDade.

Said he, "I'm awfully thirsty, I hope we'll make the grade!" This needless cause for doubting, once more an epic's made.

Two gallant sons of Scotia, Sam Douglas and McDade, Have earned undying glory—claimed records of their own, Conquered the awful terrors of the great and wild unknown.

No city's grand procession, with bags and ticker tape, Marks their unique achievement in Record their deed in marble, install in hall of fame.

They reached the town of Blairmore, then "speechless" home they came! —Hilly-Billy, Hillcrest

attempted to end his life here on Sunday morning by cutting his throat. He was found later on in the morning by John Hutick, a brother-in-law, who notified the doctor, who did all that could be done for him. The man had been dependent for some time past and this is the outcome. He has since been taken to the Lethbridge jail to await trial. Medveyky has resided here for about eight years, and has a wife and family residing in Czechoslovakia.

Mrs. William Alexander, accompanied by her mother, Mrs. D. Hall, left Tuesday night for Vancouver, where they will spend three weeks visiting relatives.

Mrs. F. Wolstenholme left Wednesday afternoon's train for a visit to Mayo Bros' clinic at Rochester. She has not been well of late.

Miss Ethel Smith, youngest daughter of Mr. and Mrs. Thomas Smith, became the wife of Mr. Lehesty DeLuko, of Michel, on Saturday evening.

The marriage ceremony being performed by Rev. A. E. Larkie at Blairmore. A wedding supper was served at the home of the bride's parents, after which the young couple left by car for Calgary on a brief honeymoon. They will return to Michel to reside. Their many friends wish them many years of happiness.

WORLD HAPPENINGS
BRIEFLY TOLD

It is possible that an open season for prairie chicken shooting may be declared all over Alberta this year.

Third reading was given in the House of Commons to a bill approving an arrangement for 99 years for joint use of railway tracks and station facilities at Quebec city by the Canadian National and Canadian Pacific railways.

The little cottage in Toronto where Mary Pickford, noted film star, was born, is to be used as a tea room. City council has granted the application of A. Trudelle to operate a tea room there.

"United control" of all United States transportation, bringing motor and waterway traffic under the Interstate Commerce commission, was recommended in the report of the transportation conference of 1934.

Over 43,000 more hogs were graded in Canada during the first 10 weeks of this year than in the corresponding period of last year, namely, 657,811 in 1934; 614,687 in 1933.

J. H. Parkin of the National Research Council, Ottawa, states that a new type of aeroplane designed especially for service in mining fields, had been tested at the council's laboratory and was now under construction.

Reduction of freight rates on coarse grain shipped east and west from the prairie provinces to a level approximating the export rate will be urged upon the Dominion government, it is a resolution proposed by Premier Brownlee is passed by the Alberta legislature.

Serpents are not known to exist, Prof. J. R. Dymond, assistant director of the Royal Ontario Museum of Zoology, stated in a lecture at Toronto. "Those that have been reported and have been scientifically investigated," he said, "have been proved to be cases of mistaken identity."

An unnamed Chicagoan is scheduled to pay an income tax this year of \$1,593,633.96, indicating he made from \$4,000,000 to \$5,000,000 in 1933. Plans for the release and return to their homes at Brilliant, B.C., of 500 Doukhobor prisoners now in Piers Island penal colony, have been completed by the British Columbia and Dominion governments.

"If you wash your face I'll give you a piece of candy," said grandmother. "And if you wash behind the ears I'll give you two pieces."

"Grandma," replied little Johnny, "maybe I'll better have a bath."

Agricultural Notes

Many Items Of Interest To The Western Farmer

An ounce of tomato seed will produce 1,500 plants; cabbage seed 1,800 plants, and celery seed 3,000 plants. According to cold storage tests, the rate of production of eggs is apparently not related to the keeping quality of the eggs.

Storage holdings of dressed poultry in Canada on January 1 of this year amounted to 11,949,762 pounds, some 40 per cent. greater than at the same date on the previous year. Exports of Canadian poultry and eggs have increased appreciably in the last few years, while imports of both shell and processed eggs have decreased materially.

Total milk production in Canada last year was approximately the same as for the preceding year which was estimated at 15,917,868,000 pounds.

Nearly 60 per cent. of all Canadian exports which in their original state were produced on Canadian farms went to the United Kingdom during the fiscal year ending March last year.

Farmers in French Morocco in the vicinity of Fez are authorized until the end of the close season of 1934 to destroy wild boars on their lands at any time and by any means except fire, but they must not sell or give away the carcasses.

Dairy production in most foreign countries has shown an increase during the past few years, this trend being especially noticeable in New Zealand and Australia where both butter and cheese production has shown a marked expansion.

Ontario, Quebec, and British Columbia are the provinces in which commercial production of tomatoes for canning purposes and fresh sale are of greatest importance, the total acreage being approximately 20,000 acres. The Agricultural Situation bulletin.

Experiments in Ireland showed that there was no appreciable difference in the keeping quality of eggs from hens confined in pens or on free range, the main factor governing the keeping quality being the season of the year. Eggs packed with the air cell up remained in good condition longer than those packed with the air cell down.

While the market for Canadian farm products in the United States is very buoyant, on under present tariff arrangement, nevertheless, says "The Agricultural Situation" bulletin issued by the Dominion department of agriculture, economic conditions in that country cannot fail to have repercussions upon Canada, whether direct or indirect.

The Wheat Agreement provides for an export quota of 200 million bushels for Canada during 1933-34. When the full amount of this quota is exported, Canada will have a carry-over on July 31, next, of about 164 million bushels, the equivalent of probable domestic consumption during 1934-5, and a normal carry-over on July 31, 1935. This means that every bushel of wheat produced in Canada in 1934 will be available for the world market.—The Agricultural Situation bulletin.

Women Study Prospecting

Class Conducted At University Of Manitoba Is Growing

Ever widening their field of interest and activity, women of Winnipeg have entered the prospecting field. Seven women prospectors in embryo attended the first short course for miners conducted by Dr. G. M. Brownell of the geology department, University of Manitoba, and still more registered for the second session.

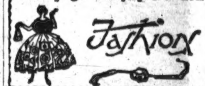

The first seven finished the initial lessons and received certificates from the department of mines. At present their knowledge is academic, but there has been some talk of an expedition in the spring for practical work.

One woman prospector is actually doing location work in Manitoba. She is Miss Kathleen Rice, honor graduate of Toronto University, who is located at Herb Lake. Miss Rice is a prospector in the real sense of the word, finding a trail of huskies, wearing hob-nailed boots and well equipped to care for herself in the wilderness.

That mythical beast, the Chinese dragon, is described in old books as having a camel's head, deer's horns, a snake's neck, a clam's stomach, fish's scales, eagle's claws, and the ears of a cow.

When you have passed selfishness, untruthfulness, jealousy and egotism then success is the next station.

TO VIE WITH SPRINGTIME
YOUTHFUL MODEL COMBINES
NAVY BLUE WITH BRIGHT
GREEN

Exceptionally youthful, smart and wearable is to-day's jacket dress pattern.

The skirt and the jacket are navy blue crepe silk. The bodice of the dress that is attached to the skirt is in bright green and navy crepe print. Its cunning, frilled collar reflects the new wind-blown idea.

Its as easy as A, B, C, to fashion it.

Another scheme is lightweight tweed woven in beige with brown fleckings with the bodice of the dress of brown necktie silk with wide stripes of beige. Style No. 589 is designed in sizes 14, 16, 18 years, 36, 38 and 40 inches bust.

Size 16 requires 3 1/2 yards of 39-inch material with 1 1/2 yards of 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Newest Dental Chair

Patient Hears Music And Forgets About Being Afraid

A dental chair which its inventor believes the patient will climb into without dread was demonstrated in connection with the Chicago Dental Society's annual convention.

Dr. Elmer S. Best of Minneapolis said its development was due to experiments which revealed to him that music had powers also to charm away that mental shrinking with which most people regard their session in dentist's chairs.

Applying his idea, he has worked out a plan whereby a wire connection brings music from a cabinet through the dental chair's head piece to amplifiers which press against the patient's mastoid bones. The patient absorbs the music through the bones and the contrivance can be tuned so low that the music is inaudible in the room.

He said children became so completely interested in the music that frequently they have forgotten their teeth were being worked upon.

"I have heard of only one man who was not uplifted by being 'lulled,'" remarked a wit.

"And who was he?" asked the "goat."

"The Prophet Daniel, sir," was the response.

"We might destroy all correspondence previous to 1907."

"I think so—but we must take carbon copies first."

Little Journeys In Science

SNOW

(By Gordon H. Guest, M.A.)

Snow, so common in Canada, is seldom found south of 36 deg. north latitude, except in regions modified by high altitudes. Snow consists of particles of frozen moisture which result when the air is cooled below the freezing temperature. A cluster of such crystals is called a snowflake. Hail and sleet are raindrops which have been frozen in their journey through the air, but snowflakes are produced when the vapor in the air crystallizes. A snowflake becomes larger in falling through the air because it condenses additional moisture in its descent. They are larger in mild weather than when it is very cold.

Snowflakes assume a great variety of beautiful forms and over a thousand different kinds have been observed. They are seen to the best advantage under the microscope when they are collected on glass slides. The finest forms are found in the polar regions. The star shape is the most common. Some consist of hexagonal plates and others as hexagonal prisms.

The "snow line" is the edge of the area of perpetual snow, above which the ground is covered with snow all the time. The latitude regulates the altitude of the snow line. For example, in the Himalayas, Lat. 31 deg. N., it is 17,000 feet, in the Rocky Mountains, Lat. 43 deg. N., 12,400 feet; in Norway, Lat. 70 deg. N., 3,400 feet. Generally, that side of a mountain range which is exposed to the prevalent wind has a lower snow line than the opposite side. In the polar regions the snow line approaches the level of the sea.

Snow is a non-conductor and thus it forms a protective covering for the earth, keeping the temperature of the ground from dropping to an extent that would destroy seeds and plants. The snow melting on the mountains furnishes water for irrigating arid lands, and supplies the rivers with water in the summer. Glaciers are simply huge masses of ice and snow. The first mention of "glaciers" was made by the great writer Aristotle, who discovered deposits of it on high mountain tops. In the polar regions it is most abundant and is due to very small vegetable organisms.

Recipes For This Week

(By Betty Barclay)

ORANGE BUTTER FROSTING

3 teaspoons grated orange rind
1/2 cup sugar
1/2 cup orange juice
4 tablespoons orange juice
2 teaspoons butter
1 egg yolk, unbeaten
1/2 cup salt
3 cups sifted confectioners' sugar
Add orange and lemon rind to fruit juice and let stand 10 minutes; strain if desired. Cream butter; add egg yolk and mix well. Add part of sugar gradually, blending after each addition. Add remaining sugar, alternately with fruit juice, until of right consistency to spread. Beat after each addition until smooth. Make enough frosting to cover tops and sides of two 8-inch layers, or top and sides of 8x8x2-inch cake (generously), or about 3 dozen cup cakes.

FRENCH COCOA BALLS

1/2 cup cocoa
1 1/2 cups confectioners' (very fine) cup sugar
1 cup nut meats
1/2 cup sweetened condensed milk
1 tablespoon vanilla
Mix 1/2 cup cocoa and 1 1/2 cups confectioners' sugar. Chop nut meats and add. Moisten with sweetened condensed milk and vanilla. Shape into balls. Combine the remaining sugar and cocoa and roll the balls in it. This recipe makes three dozen.

Weight Of Million In Gold

"The weight of a million dollars in gold would depend upon the fineness of the gold and whether it were in form of gold coins or new gold. A million dollars in United States gold coins would weigh 35.30 ounces, there are 25.8 grains of nine-tenths fine gold to the dollar. At the present R.F.C. gold price it takes about 28,000 ounces of newly mined gold to be worth a million dollars."

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver Bile —No Calumet necessary For you to feel healthy and happy, your liver must be in good condition. Your liver is the largest organ in your body. It filters out all the poisons in the blood. General weakness, indigestion, loss of appetite, aching joints, all these are signs of a liver that is not working properly. It is the liver that makes you feel so wretched when you are sick. It is the liver that makes you feel so tired when you are overworked. It is the liver that makes you feel so nervous when you are worried. It is the liver that makes you feel so miserable when you are depressed. It is the liver that makes you feel so lonely when you are alone. It is the liver that makes you feel so sad when you are sad. It is the liver that makes you feel so angry when you are angry. It is the liver that makes you feel so happy when you are happy. It is the liver that makes you feel so loved when you are loved. It is the liver that makes you feel so free when you are free. It is the liver that makes you feel so strong when you are strong. It is the liver that makes you feel so brave when you are brave. It is the liver that makes you feel so kind when you are kind. It is the liver that makes you feel so generous when you are generous. It is the liver that makes you feel so forgiving when you are forgiving. It is the liver that makes you feel so understanding when you are understanding. It is the liver that makes you feel so compassionate when you are compassionate. It is the liver that makes you feel so loving when you are loving. It is the liver that makes you feel so caring when you are caring. It is the liver that makes you feel so giving when you are giving. It is the liver that makes you feel so sharing when you are sharing. It is the liver that makes you feel so helping when you are helping. It is the liver that makes you feel so supporting when you are supporting. It is the liver that makes you feel so encouraging when you are encouraging. It is the liver that makes you feel so inspiring when you are inspiring. It is the liver that makes you feel so motivating when you are motivating. It is the liver that makes you feel so empowering when you are empowering. V. A. Bowes, assistant district passenger agent of the C.P.R., was in town from Calgary on Tuesday, following a visit to Coleman and Hillcrest.

IN MEMORIAM

Sacred to the memory of Ronald Darr, who passed away at Hillcrest hospital, following an operation, March 12th, 1930.
Ever remembered by Mother and all at home, also Mrs. Verlie Silcock, sister, and Argie, late of Hillcrest. "Thy Will Be Done."

IN MEMORIAM

In loving memory of Dad and Mamma, who died March 27 and 31, 1924.
"Not like the rose shall your memory wither,
But like the evergreen flourish for ever."
Ever remembered by Lilly, Bessie, Tom and Albert Crowder.

IN MEMORIAM

BARRELL—In loving memory of our dear son and brother, Percy, who left us March 28th, 1931, aged 18 years.
"Silently, peacefully, angels did carry him
Into the beautiful mansions above.
There he rests from earth's sorrows for ever,
Safe in the arms of God's infinite love."
Missed so much by Mum and Dad, Brothers and Sisters.

From the soy bean Chinese are making a substitute, for cow's milk.
Mr. Healey, mine inspector, was down from Calgary over the week end.

Mrs. Martha Gunderson, of Drumheller, has been elected grand chief of the Alberta Pythian Sisters.

Robert English has resigned as deputy minister of municipal affairs at Edmonton, and is succeeded by A. Souter.

When a young lady walked down the street on Saturday, Tony remarked: "She's a suicide blonde—died by her own hand."

"I've always been religiously inclined," remarked the oyster as he slid down the minister's throat; "but I never dreamed of entering the clergy."

Man is that peculiar animal who can get a good hearty laugh out of pictures in an old family album, and then look in a mirror without as much as a grin.—Ex.

THE LADIES' AID of the United Church will hold a tea and sale of home cooking, fancy goods, etc., in the church auditorium on Saturday, March 31st from 3 to 6 p.m.

The barber had used his electric clippers in cutting little Betty's hair. "I guess my neck wasn't clean," she told her mother on coming home, "cause that man Link used his vacuum cleaner on it."

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

It cost Drumheller \$2,000 last year to pipe water to the city cemetery. Must be a dry bunch there!

The annual convention of the Canadian Weekly Newspapers Association will be held in Montreal in August.

A nasty omission: The retail liquor code does not specify whether the bartender's moustache shall be waxed or curled.—Ex.

Negotiations are proceeding between the miners of Coleman, Blairmore and Bellevue and the coal companies towards the signing of new agreements.

Twenty-five dollars a month for everyone in Alberta of 21 years or over was the startling proposal of Aberhart in presenting his Douglas plan before the legislature.

Isn't it rich to think that United States holders of lucky sweepstake tickets can get their money without any trouble, while in Canada any dishonest or no-good guy can grab the money through legal channels.

The very height of optimism has been reached by a guy who has been making headquarters in The Pass for several months. He anticipates a strike and the very urgent necessity for a maternity hospital in Blairmore. Next?

Guglielmo Marconi states: "The affirmation that science and the machine are responsible for the world crisis and unemployment must be rejected definitely. They have made it possible for man, with enormous reduced effort, still to have everything he needs for a life of comfort."

Miss Katie Williams, former Blairmore teacher, and her brother Jack, were both in the lucky line for the Irish sweepstakes, landing consolations of \$500 each. Another Williams, in order to live up to the requirements of a silly Canadian law, acted as informant, so that the stakes are secured.

Mr. J. E. Gillis returned by Saturday night's train from Rochester. His many friends will be pleased to learn that his condition has very much improved, and while limping from the after effects of blood poison in the foot, there is every hope of saving the limb. We were glad to see him around on Tuesday.

Thirty-six years ago March 31st, forty-eight men lost their lives on the ice off the east coast of Newfoundland, part crew of the sealing steamer Greenland. Twenty years ago, 173 men went down with the steamer Southern Cross. In the same spring 77 men, part of the crew of the s.s. Newfoundland, perished.

Ten thousand children were carried in Canadian Pacific liners in 1933, ranging from infancy to ten years of age. Usually they were accompanied by their parents, but a number travelled by themselves, sometimes on journeys of 5,000 miles or more. Nurseries aboard the ships have everything to keep a child amused and interested.

Revs. W. T. Young, R. W. Magowan, Paul Hediger and P. Turquist, of Calgary, who are prominent in the Oxford movement, motored to Coal City Monday and met clergymen and laymen from Drumheller, Wayne, Munson, Rockyford, Delia and Hanna. At an informal luncheon, the Calgary visitors gave a report of recent activities of the Oxford movement in Calgary and other places. No definite action was taken by the Drumheller and other representatives, but the general feeling was that much had been accomplished through the visit of the Calgary delegation.—Drumheller Review.

The Alberta legislature has voted one million dollars for highways in 1934.

Andy Davidson, mayor of Calgary has been elected grand first principal of the provincial chapter of the Royal Arch Masons.

Congratulations are being extended to Mr. and Mrs. Joe Cardinal, of the Gap ranger station, on the birth of a son, Henry Joseph, at Calgary.

At twenty a man will be a peacock, at thirty a lion, at forty a camel, at fifty a serpent, at sixty a dog, at seventy a monkey and at eighty nothing.

During the week, the Blairmore Motors made sale of four new service trucks. In addition, Mr. Sartoris states that quite a number of cars are being disposed of.

At Macleod on March 19th, M. Freiburger, of Athabasca and formerly of the Cowley district, was sentenced to six months in Lethbridge gaol for stealing a horse from J. B. Miller of the South Fork.

According to a scientist, African cannibals will not eat anyone who is more than forty years old. So far as we're able to determine, that's the only danger incident to existence which we've safely passed.

Tony says: "Deesa modern time. Pretty soon we have been hospital wild beeg nurse and doctor man. People no have fer wait fer treatments twelve months. Sex months notice you're goin' be seek—that's all. Sex months' time den your turn."

A total of 14,843 vacationists sailed on the Duchess of Atholl and Duchess of Bedford on short trips from New York to Quebec and Montreal in the past two summers. So successful have been these trips that they will be repeated this summer by the Duchess of Richmond, the first trip from New York in July.

Increased popularity of Easter greetings by wire is being met by special wire facilities arranged by the Canadian Pacific department of communications, to deal with the additional seasonal traffic this year. Flowers can also be wired and figures show that there has been a steady growth in this service since 1930.

For the benefit of those whose favorite pastime is peddling, we might state that the 34th annual bull sale will be held at Calgary on April 4th, 5th and 6th, under auspices of the Alberta Cattle Breeders' Association.

Legislation has been passed, whereby newcomers into the town of New Glasgow must register at the town office immediately. The measure is aimed at clearing away present difficulty in determining person for whose support the town is responsible.

The Victoria, B.C., Colonist recently observed its seventy-fifth birthday anniversary. The Colonist was the first of Canada's big newspapers to be established west of the Great Lakes, and started its career six weeks after the law of Great Britain became the law of British Columbia.

A warning against eating overly and highly seasoned foods as a definite means of preventing cancer of the stomach was issued recently by Dr. William Mayo, head of the Mayo clinic at Rochester, Minn. The fatalities caused by this insidious disease are second only to diseases of the heart and blood vessels, said Dr. Mayo, adding that it had been definitely established that irritation is the cause of cancer, and that the stomach is the most prevalent breeding ground of the disease.

A five-dollar tax on mail-order house catalogues has been proposed at Ottawa.

The Lethbridge Herald of Friday last referred to a Bellevue newlywed couple as "Younglings."

Coleman was not represented at the meeting called for Friday afternoon last, to discuss the district hospital question.

An item in our last issue, referring to the electrician, should have read: "Is it fair to the town electrician?" instead of "It is fair, etc."

An eighteen-year-old lad, Ian Gunn, died at New Glasgow, N.S., following the accidental discharge of a revolver, the charge entering his head.

Kimberley Dynamiters were decisively defeated by Fort William in a two-game goals-to-count series. Kimberley tied the first game 3-3, but lost the second 5-0.

The many Pass friends of Corporal James Cawsey are pleased to learn that he is being promoted to the full rank of sergeant in the R.C.M.P., and will don the extra stripe April 1.

A great rush for 1934 car licenses is expected here on Saturday and Monday. Many a local car would have been on the road and burning up gas for the benefit of the government during the past month and half at least, were it not for the exorbitant license fee.

BLAIRMORE UNITED CHURCH
